

## **BUSINESS FUNDAMENTALS & PROFESSIONAL COMPETENCIES FOR NON-BUSINESS STUDENTS**

### **B53 MGT-460E**

Credits: 3 units

Prepare for an internship or full-time job in organizations such as nonprofits, entrepreneurial ventures, government, education, healthcare, and corporations. Through a combination of lectures, exercises, projects, and cases, you will develop essential technical and professional skills required by employers.

The class is designed for Washington University undergraduates in arts & sciences, engineering, and design and visual arts preparing for an internship or job. Recommended for sophomores and juniors. Business students cannot receive credit.

#### **COURSE TOPICS INCLUDE:**

- Team development and leadership
- Analysis and working with data for informed decisions
- Fundamental concepts for business and financial analysis
- Organizational strategy, analysis, and problem solving
- Applied communications skills: professional writing and group presentation
- Career preparation including self-assessment, networking, and interviewing strategies
